

Joshua Ericson

Burbank, California

joshuaericson@gmail.com | (818) XXX-XXXX | Website joshuaericson.com

The state is facing an affordability crisis, environmental inequity, and the impending threat of climate change disasters. We must address these issues by building communities that prioritize public and active transportation over automobiles.

Education

California Polytechnic State University San Luis Obispo | June 2026

Bachelors of Science, City and Regional Planning, Geographic Information Systems Minor, 3.9 GPA

- Community Planning Studio: Produced map materials to support community outreach efforts for a corridor revitalization plan in Cathedral City, CA, including a tree inventory, maps of shade coverage and equity.
- Urban Design Studio: Researched zoning and regulatory feasibility of a mixed-use development, analyzed the site conditions with a site analysis visit, and created a site plan, section cut, and master plan for the development.
- GIS Applications: Created an updated survey of trees on campus using a mobile GIS app to calculate captured carbon.
- Digital Soil Mapping: Analyzed Soil Burn Severity and Sampling Methods using R, Google Earth Engine, and QGIS.
- Environmental Planning: Utilized GIS to research for and draft a CEQA initial study for a mixed-use development in compliance with city general plan and local zoning laws.

Los Angeles Pierce College | June 2023

Associate of Arts Degree, American Sign Language Interpreting, 4.0 GPA

- 400 hours technical education in interpreting between ASL and English for a variety of settings.
- Explored the role of interpreters in Deaf Culture and applied professional ethical behaviors.

Experience

GIS Peer Assistant - Cal Poly Kennedy Library Digital Projects Lab | March. 2025 - Present

- Assist peers with GIS projects in various disciplines during scheduled appointments at the Digital Projects Lab.
- Create and host student-centered workshops, focusing on learning outcomes to ensure educational effectiveness, on topics including ArcGIS StoryMaps, git and GitHub, Map Design and Cartography, and mobile data collection.
- Collaborate with Library Faculty and Staff to create data visualization and video materials to exhibit library collections.

Instructional Student Assistant - Natural Resources Department | Jan. 2025 - Present

- Guide GIS Lab activities and consult with professor to ensure instructional efficacy of teaching materials.
- Facilitate communication between students and project stakeholders for Applied GIS final projects.

Vice President - Associated Students in Planning Club | Sept. 2024 - Present

- Attend weekly board meetings to coordinate weekly meeting activities and plan social events.
- Lead planning team for three firm tours hosting groups of 30 students to explore planning careers across California.
- Ensure compliance with school policy by engaging in direct contact with department administrative staff

Student Assistant - College of Agriculture Dean's Office | June 2025 - Jan. 2026

- Surveyed 60 College of Agriculture faculty and staff to understand land use and value using ArcGIS Survey 123.
- Integrated research, production, and education data into an interactive GIS map using ArcGIS Online.

ASL Interpreter - LAPC Volunteer Interpreting Program | September 2022 - August 2023

- Engaged in over 100 hours of volunteer interpreting across a variety of settings.
- Prepared for both Zoom and in-person interpreting assignments by evaluating interpreter fit for setting and context.
- Researched vocabulary, worked with team to ensure accuracy of message, and communicated corrections to clients.

President - American Sign Language Club | Fall 2022 and Spring 2023

- Planned and hosted monthly Club Meeting activities for ASL students of various levels.
- Led event planning team for "Hollywood and Media: Through a Deaf Lens" with Director CJ Jones. Corresponded with speaker; Arranged campus facility needs; Hosted Q&A session for 100 guests.

Skills

- Written and Oral Communication, Navigating Bureaucracies, Data Discovery, Troubleshooting, Research and Analysis.
- QGIS, ArcGIS Pro, ArcGIS StoryMaps, Microsoft Excel, Word, and PowerPoint, RStudio (Tidyverse, Terra), Google Earth Engine, SketchUp, Adobe InDesign, Photoshop, and Illustrator.
